

MR1035-1346

Appl. No. 10/720,206

Response to Final Office Action dated 25 January 2006

AMENDMENTS TO THE CLAIMS

This Listing of Claims will replace all prior versions, and listings of Claims in the application.

LISTING OF CLAIMS

Claims 1-37 (Cancelled).

Claim 38 (New) A surgical towel, comprising:

a sheet of woven fabric comprising at least one stitched hem;

a thread of a different color than a color of the fabric for stitching the hem,
the thread color visually identifying the surgical towel as x-ray detectable; and

at least one piece of x-ray detectable material attached to the fabric by the thread, the x-ray detectable material protruding from the hem allowing visual identification of the x-ray detectable material's location, the x-ray detectable material comprising identifying characteristics to identify an x-rayed object as a surgical towel.

Claim 39 (New) The surgical towel of claim 38, whereby the piece of x-ray detectable material comprises Barite, Barium, or BaSO₄.

Claim 40 (New) The surgical towel of claim 38, whereby the piece of x-ray detectable further comprises polyvinyl chloride (PVC).

MR1035-1346

Appl. No. 10/720,206

Response to Final Office Action dated 25 January 2006

Claim 41 (New) The surgical towel of claim 38, whereby the piece of x-ray detectable material comprises 60% BaSO₄ and 40% PVC.

Claim 42 (New) The surgical towel of claim 38, whereby the sheet of woven fabric comprises cotton, synthetic material or a combination of these.

Claim 43 (New) The surgical towel of claim 38, whereby the sheet of woven fabric is single-ply.

Claim 44 (New) The surgical towel of claim 38, whereby the x-ray detectable material is a flexible strip through which the hem stitching is sewn.

Claim 45 (New) A surgical towel comprising:

a sheet of single-ply woven cotton fabric having four edges;

at least one hem stitched in at least one of the four edges;

a thread of a different color than a color of the cotton fabric for stitching the at least one hem, the color of the thread visually identifying the surgical towel as x-ray detectable; and

at least one piece of x-ray detectable material attached to the fabric by the thread, the x-ray detectable material protruding from the hem allowing visual identification of the x-ray detectable material's location, the x-ray detectable material comprising identifying characteristics to identify an x-rayed object as a surgical towel.

MR1035-1346

Appl. No. 10/720,206

Response to Final Office Action dated 25 January 2006

Claim 46 (New) The surgical towel of claim 45, whereby the piece of x-ray detectable material comprises Barite, Barium, or BaSO₄.

Claim 47 (New) The surgical towel of claim 45, whereby the piece of x-ray detectable material further comprises polyvinyl chloride (PVC).

Claim 48 (New) The surgical towel of claim 45, whereby the piece of x-ray detectable material comprises 60% BaSO₄ and 40% PVC.

Claim 49 (New) The surgical towel of claim 45, whereby the sheet of woven fabric comprises cotton, synthetic material or a combination of these.

Claim 50 (New) The surgical towel of claim 45, whereby the sheet of woven fabric is single-ply.

Claim 51 (New) The surgical towel of claim 45, whereby the x-ray detectable material is a flexible strip through which the hem stitching is sewn.

Claim 52 (New) A surgical towel comprising:

a sheet of single-ply woven cotton fabric having four edges;

at least one hem stitched in at least one of the four edges;

MR1035-1346

Appl. No. 10/720,206

Response to Final Office Action dated 25 January 2006

a thread of a different color than a color of the cotton fabric for stitching the at least one hem, the color of the thread visually identifying the surgical towel as x-ray detectable; and

at least one piece of x-ray detectable material through which the hem stitching is sewn, the x-ray detectable material protruding from the hem but not extending past an edge of the fabric, allowing visual identification of the x-ray detectable material's location, the x-ray detectable material comprising identifying characteristics to identify an x-rayed object as a surgical towel.

Claim 53 (New) The surgical towel of claim 52, whereby the piece of x-ray detectable material comprises Barite, Barium, or BaSO₄.

Claim 54 (New) The surgical towel of claim 52, whereby the piece of x-ray detectable material further comprises polyvinyl chloride (PVC).

Claim 55 (New) The surgical towel of claim 52, whereby the piece of x-ray detectable material comprises 60% BaSO₄ and 40% PVC.

Claim 56 (New) The surgical towel of claim 52, whereby the sheet of woven fabric comprises cotton, synthetic material or a combination of these.

Claim 57 (New) The surgical towel of claim 52, whereby the sheet of woven fabric is single-ply.
